

defining the Edge

Since 1814, WÜSTHOF has always gone one step beyond. Where technology stopped, when others were satisfied, when the materials at hand seemed good enough, we pushed even further. It is this dedication to excellence that goes into every knife we produce — a well-planned integration of philosophy, materials, and craftsmanship to give those who choose WÜSTHOF a marked edge.

In our continuing quest for excellence, we are pleased to recognize a new wave of culinary professionals, a select group of individuals who exemplify defining the Edge in their unwavering desire to always challenge the status quo. These are the very same qualities that have driven WÜSTHOF for generations.

Open Stock: Now featuring NEW PEtec Edge!

WÜSTHOF knives go through 38 major manufacturing steps and are forged from a single blank of high carbon, rust resistant steel. Tempered to an exact 58 degrees on the Rockwell scale, each knife holds an edge and is easy to sharpen. Ideal heft, weight, balance and comfort in each knife. Laser guided perfected sharpening to 14 degrees per side. Our sharp knives are even sharper.

The new PEtec edge is 20% sharper and lasts twice as long.

GRAND PRIX II
Molded handle with a pebble grain finish.

CLASSIC
Traditional triple rivets on European style handle.

CLASSIC IKON
Double bolster and rounded ergonomic handle.
